Thanks Peter. The Biden-Harris Transition Team had specifically identified the MC risk evaluation for potential review; Michal has mentioned that some of the others might need to be reviewed as well, thus the notation.

Hi Rick,

We made a few additions to slide 5, adding in the 25b ANPRM, the product performance NPRM and related test guidelines, the acute dermal waiver guidance, the reopening of the TSCA active-inactive reporting period, the surface coating guidance, and the new chemical SNUR that will be included in the effective date extension. A quick question on the MC risk eval:

Thanks Carol Ann! It appears that responsive information is already presented in slide 5 (as taken from the new team's list of 1/20) so we'll quickly add to it the other key rules and guidance discussed during the program generals (e.g., PFAS compliance guide, 25b ANPRM, product performance...).

**** By 2 pm today to Rick Keigwin****

Angela & Peter – Could you please prepare a slide that implements Michal's suggestion. (I don't need to review it.)

Kaitlin & Amanda -- Could you please prepare a slide re: EJ, per Michal's suggestion? I'd like to take a quick look before we send it to Rick.

Subject: Michal's feedback on the slides for the Dan Utech Briefing

Thanks for everyone's help yesterday in rapidly pulling together the slides for Monday's briefing for the new chief of staff.

See Michal's feedback below. Attached is my attempt to address her input (additions are in red), however, I know that we have more to tell. I'd welcome your input/revisions **by late morning/early afternoon today** so that we can put this before Michal one more time before we need to send the deck to Dan's office.

1. Where I think we could probably usefully add some materials is in the areas we know we are likely to explore in response to EOs or otherwise-articulated Administration priorities.
